

Mam,

I do not want to eat irradiated food! If you destroy the value of US food, you weaken us as a nation and sabotage the country. Please - at least require prominent disclosure in easy-to-read type on the front of the package. Then you can eat it.

Bay Harbor Isles
FL 33154

The rare P. ... Florida's shallow salt waters where it can ... that tipped bill. As the bird matures its colors intensify, so that the adult is mostly pink and the young offspring a very faint pink. This beautiful but almost extinct form of Florida wildlife is usually silent and is graceful in flight with its neck outstretched.
